

Module

```
graph BT; A["torchvision.models.detection.rpn.  
RegionProposalNetwork"] --> B["Module"]
```

The diagram illustrates an inheritance relationship. A light gray box at the top is labeled 'Module'. A dark gray box at the bottom contains the text 'torchvision.models.detection.rpn.' followed by 'RegionProposalNetwork' on a new line. A blue arrow points vertically from the top of the bottom box to the bottom of the top box, indicating that RegionProposalNetwork inherits from Module.

torchvision.models.detection.rpn.
RegionProposalNetwork
