

Module

```
graph BT; A["torchvision.models.detection.generalized_rcnn.GeneralizedRCNN"] --> B["Module"]
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray rectangular box containing the text 'torchvision.models.detection.generalized\_rcnn.GeneralizedRCNN'. A blue arrow points vertically upwards from the center of this box to a white rectangular box at the top containing the text 'Module'. This indicates that GeneralizedRCNN inherits from the Module class.

torchvision.models.detection.generalized  
\_rcnn.GeneralizedRCNN
